

State of ratratrat33 as of today

Me and the gang at Barbarian Assault

This is ratratrat33, my 1500 hour old character in Old School RuneScape (OSRS). I won't bother explaining the game too much since there are tons of resources outside of this post that do a much better job at selling the game. This blog post is more about logging the state of the account and some of the future goals in a more digital way.

Stats, Gear, and Quests

While the stats and gear look impressive on paper (two 99s!), I'm still heavily gatekept from content due to a lack of quests completed. If we looked at this account a month or two ago it would've been a lot more tragic but I've actually gone and completed a lot of huge milestones:

| Quest | Unlocks |
|------------------------------|-----------------------------------|
| Song of the Elves | Gauntlet (Minigame Boss) |
| Hard Western Provinces Diary | Crystal Halbard, Elite Void Armor |
| The Final Dawn | Doom of Mokhaiotl (Boss) |
| Beneath Cursed Sands | Tombs of Amascut (Raids) |

These quests also gave me the motivation to push my skills an insane amount. Off the top of my head these are the grinds I ended up pushing for either directly or indirectly because of the requirements:

- Herblore: 70 -> 90
- Construction: 52 -> 70
- Agility: 72 -> 76
- Smithing: 70 -> 88
- Woodcutting: 84 -> 90
- Farming: 70 -> 88

Note that none of these are combat related and that's the elephant in the room. For midgame content the stats flatten the opposition but when going up against Doom or even Gauntlet the combat stats leave a lot to be desired. It also doesn't help that I haven't gotten the poverty Rigor (Range) and Augury (Magic) prayers...

What's Next

Currently I have a hodge-podge list of goals I want to hit with no particular order or schedule so I'll list them out with a ternary priority system:

| Goal | Why | Importance |
|-----------------------|--|------------|
| 99 Magic | Skill Cape (For Spellbook Swaps) | Low |
| Dragon Slayer II | Vorkath (Boss) is a money printer. | Med |
| While Guthix Sleeps | Tormented Synapse is BiS against Doom | High |
| The Path of Glouphrie | 20k Slayer XP is nice 😊 | Med |
| A Taste of Hope | Want to prep for final quest in series | Low |
| Venator Bow | Makes Slayer and Range training free | Med |
| Eye of Ayak | Budget Tumecken's Shadow (so very good) | Med |
| 74 Construction | Rejuvenation Pool + Other Stuff | High |
| 65 Runecrafting | Hard Ardougne Diary | Med |
| Rainments Set | I do NOT want to get 77 RC for Elite Varrock | High |
| Recipe for Disaster | Barrows Gloves are TOO good for the price | High |
| 94 Herblore | Divine Super Combats 🙄 | Low |
| 99 Woodcutting | Swag | Low |

First up will be 74 Construction, 65 Runecrafting, and Rainments set since two are tied together via Guardians of the Rift and the other task (74 Construction) is a 1-2 hour ordeal. Of course this isn't a strict list and it is highly likely I will NOT follow it. Song of the Elves took me over a year to complete despite it being one of my first goals.

It's also very likely I get incredibly derailed by the new Sailing skill, the new Group Ironman Mode my friends wanna do (pictured on the first page), or learning more PvM encounters (Theatre of Blood, Vorkath, Zulrah, etc).

On that note, cheers to the first blog (and the associated revamp of my homepage) and hope to make another update blog soon.
